

The Oxnard Union High School District Linked Learning Model:

- Prepares students for College, Career, and Life;
- Connects academies to real-world application by integrating challenging academics with a demanding technical curriculum;
- Leads to a full range of postsecondary and career opportunities, keeping all options open after high school; and
- Improves overall student achievements.

The success of our students is possible through strong community partnerships with businesses and community leaders who participate with OUHSD in time, knowledge and/or financial resources. Whether your goal is to give back to the community, shape public opinion about your business or industry, network with other business and civic leaders, or recruit future talent from the District, we can tailor a win-win partnership that will meet your exact needs. We will provide you with students who are interested in real-world business experiences to help them succeed in college, career, and life.
